Office Memorandum

With an objective to invite or identify the regulatory issues faced by the new and disruptive startups, a consultation module has been created on the Uttarakhand Startup Portal (<https://startuputtarakhand.com/startup-uttarakhand/regulatoryissues>). Through this link on startups portal, startups can reach out to Government to present their suggestion/ comments on the process of drafting policies/ regulations regarding adoption of disruptive technologies/ business models.

Also, the draft of all important regulations on new and disruptive areas are publishes on the State's Public Consultation Portal <http://ukpublicconsultation.in/> for at least 30 days for inviting comments from stakeholders. The startups can make use of this module for making comments on the draft of regulations.

The state government will consider the feedbacks and comments received from stakeholders before introducing the regulation into force. The final decision on the regulation will be published in Public Domain.
