Office Memorandum

Uttarakhand State Council for Science and Technology, registered under the Registration of Societies Act, 1860, has the mandate to promulgate scientific, technological and innovative activities within the state. Various programmes are being implemented by the council which promotes R & D activities and foster a culture of innovation and entrepreneurial spirit among the masses.

1. An innovation hub, established in collaboration with National Council of Science Museum, GOI, works for promotion of innovation by nurturing new ideas and help develop inquisitive perspective in youths of today. These hubs serve as springboards for new ideas and innovation and thus helping the society and economy to face future challenges. The hub engages young minds in innovative activities by providing an innovation resource centre, multidisciplinary laboratories, a design centre and a technology lab.
2. Under the innovation management system, Patent Information Centre is being run by the Council wherein all aspects of protection and registration of Intellectual property rights including technology commercialization is being facilitated.

(Dr Rajendra Dobhal)
Director General
